PROFILE INFO

Being a Software Engineer at BigBinary, I believe that It takes knowledge, smart work, and dedication to make great ideas come to life. I have been helping make great ideas happen for the past few years and I'm always ready for new challenges.

WORK EXPERIENCE

Dec 2020 - Present Software Engineer

BigBinary

Worked on numerous scalable client projects from scratch.

Tools: React.js, Tailwind, Node.js, ElasticSearch

Nov 2019 - Nov 2020 Product Developer

SurveySparrow

SurveySparrow is an end-to-end Conversational Experience Management Platform.

I was responsible for the design and development of the integrations in SurveySparrow and related backend features. In addition to my contributions, I was responsible for the mentoring and code review of my team.

Tools: React.js, Node.js, Redis, PostgreSQL

June 2019 - Nov 2019 Programmer Analyst Trainee

Cognizant Technology Solutions

Got the opportunity to be trained on various web technologies.

Tools: HTML, CSS, JavaScript, Angular, Spring Boot

EDUCATION

Bachelor of Technology

June 2015 - May 2019
Rajagiri School of Engineering and Technology

MY SKILLS

- React
- CSS
- Nodejs
